

Earned Recognition

Freeway is a DVSA accredited Earned Recognition IT system provider.

Founder member

As a founder member of the Earned Recognition Scheme, Freeway's fleet maintenance system is a proven Earned Recognition reporting solution throughout both the PSV and HGV transport industries.

Freeway's flexibility ensures effortless management of single or multiple O-licences across any combination of operating companies to suit the needs of your unique business.

Access. Anytime, anywhere

Get real-time access to DVSA KPI metrics via desktop or mobile device, including your statutory inspection adherence, defect rectification as well as MOT initial pass rate.

Compliance

Manage your entire fleet's maintenance planning using Freeway's built-in Routine Maintenance scheduler to ensure Earned Recognition compliance. Rest assured knowing that you are fulfilling your O-licence obligation.

Pre-empt a compliance breach

Freeway combines automated and proactive exception reporting. A simple yet detailed one-click drill down interface provides clear and actionable solutions to any potential compliance breach.

Paper free

Freeway's mobile interface provides a fully integrated digital solution. Record driver first-use checks, defects identified on the road as well as Engineering Inspections and maintenance management; removing the need for any unreliable paper processes.

Keep your staff accountable

A flexible interface ensures individual roles and responsibilities can be centrally managed, adhering to critical business processes.

The sign-on-glass functionality can be utilised at key points throughout several different workflows that provide accountability with a robust audit trail function.

Peace of mind

Externally generated maintenance records can feed into Freeway via a direct system-to-system integration; or Freeway's Optical Character Recognition feature will 'read' documents from 3rd party maintenance providers or dealerships. Enjoy peace of mind that all your vehicle and maintenance records are securely stored and instantly retrievable from within one single platform.

Sit back and relax

As is required by the Earned Recognition Scheme, Freeway will automatically submit your compliance reports directly to the DVSA. This is done retrospectively on a period-by-period basis.
